DETAILED ACTION

Ex parte Quayle

1. This application is in condition for allowance except for the following formal matters listed below.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

Priority

2. An application in which the benefits of an earlier application are desired must contain a specific reference to the prior application(s) **in the first sentence of the specification** or in an application data sheet (37 CFR 1.78(a)(2) and (a)(5)). The specific reference to any prior nonprovisional application must include the relationship (i.e., continuation, divisional, or continuation-in-part) between the applications except when the reference is to a prior application of a CPA assigned the same application number. Moreover, applicant is claiming the status of the application as a "divisional." However, as no restriction requirement was imposed in the parent applications, the Examiner a continuation of the prior application.

Response to Amendment

3. The amendments to the specification filed on 02/02/2004 do not comply with the current amendment practice for amending the specification. Current rules require a marked up replacement copy of the replacement paragraphs, which has not been provided. Only a clean copy of the replacement paragraphs is in the file.

Title

4. The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.
